

2nd Year Badges and Playlists

H2. HABITS OF MIND 2 BADGE

Habits of Mind 2 Playlist

Striving for Accuracy

Successful people who strive for accuracy take time to check their work. While some things, like a recipe, might not need total accuracy, there are many things that do! Creating a budget, figuring out a math problem, and even sending a spaceship to the moon requires accuracy! In this lesson, you will learn how to strive for accuracy and excellence in the things you do.

Questioning and Problem Posing

Have you asked any questions or wondered about something today? Did you know that the way we ask questions impacts the types of answers we receive? Naturally, humans are curious and are constantly asking questions. In this lesson, you will learn how to pose a problem and ask productive questions.

Gathering Data Through All Senses

When we talk about data, we might think about a math problem or a scientific study. However, we also gather a lot of data from our five senses. Using our senses, we can notice cues from intonation, syntax, and the assumptions we make while listening to a message. In this lesson, you will become more aware of the additional data you receive nonverbally using your five senses.

Applying Past Knowledge to New Situations

Have you ever used your past knowledge to solve a new problem? What we learn from solving problems can help us solve new problems. In this lesson, you will learn how to apply what you already know to a new and changing world.

You will learn about these four goals but you will be choosing one of these Habits of the Mind goals to work on this year. Complete at Least 3 “Highlights” for it.

Goal - Striving for Accuracy

Develop habits in striving for accuracy by always doing my best, setting high standards, and checking and finding ways to improve constantly.

Goal - Questioning and Problem Posing

Develop questioning and problem posing habits by having a questioning attitude, knowing what data are needed, and developing questioning strategies to produce those data. Finding problems to solve.Goal

Goal - Gathering Data Through All Senses

Develop habits in gathering data through all senses by paying attention to the world around you and gathering data using sight, touch, taste, hearing, and smell.

Goal - Applying Past Knowledge to New Situations

Develop habits in applying past knowledge to new situations by accessing prior knowledge and transferring knowledge beyond the situation in which it was learned.

Journey of Purpose Guide Playlist

The search for purpose is connected to the three life goals.

1. Elevating our personal strengths, skill, and maturity is our first life goal. It's finding our inner peace.
2. Developing our loving and enriching relationships, especially in the context of a family, is our second life goal. This is our personal environment of peace.
3. Positively impacting the lives of others through our unique contributions is our third life goal. Our internal peace and family environments of peace form the foundation to realize peace in the world.

These objectives model the fulfillment of our deepest purpose: to become well-rounded, capable, and benevolent people who create a peaceful society.

Become a GREAT Public Speaker Playlist

Introduction to Public Speaking

Steve Jobs was the CEO of Apple, and was a very successful speaker. He perfected the art of publicly introducing new Apple products. Developing Excellent Speaking Presentations

Developing Excellent Speaking Presentations

Gathering ideas for how to be an excellent speaker is essential. This lesson will give you some ideas.

Overcoming Fear of Public Speaking

When you think of public speaking, do you get butterflies in your stomach, sweaty hands, have trouble sleeping? You are not alone. This lesson will give you tips on overcoming this fear.

What is an "Idea Worth Spreading"? How to Become a TED Talk speaker.

TED is a nonprofit, nonpartisan foundation. TED strives to make great ideas accessible to everyone, and to create conversations about many topics. The goal of TED Talks is to spread great ideas. Let's learn more!

Getting Started with YOUR Speech

Using excerpts from Public Speaking Power, follow these steps to develop your presentation.

Putting It All Together

As you begin to prepare your own presentation, you will need to compile all the tips you've learned in the previous lessons. Let's get to work!

Final Touches

Now that you've put together your presentation and practiced, let's add on the final touches.

Possibilities Project Playlist

This project includes the goal to show your quantitative reasoning. As part of your project, include the following action steps. Create highlights to describe how you applied each step during this project.

- *Acquiring the ability to think strategically*
- *Deciding HOW to approach a particular problem*
- *Applying mathematical strategies creatively to real-life*
- *Represent Data with Formulas, Tables, and Graphs*
- *Analyze Data, Find Trends, and Make Predictions*

Your True North

Many people spend their whole lives looking for their purpose. You are going to start the process now. Some people call your purpose, your “True North” or your “North Star.” This quick exercise will get you introduced the topic.

Exploring Career Pathways

If you are like most people, you will have many jobs in your lifetime. 60% of your time will be on the job. Your mission in life is always be in jobs that you love!

Seeking Your Path

Understanding your strengths, interests, and job opportunities makes a powerful impact on the decisions you make for your life after high school.

Your Career Research Project

Deep dive into a career that you love and matters to you! We've got all the tools and resources you need to create an awesome Career Research Project!

Service Learning and Project 2 Playlist

This project will give you the opportunity to create change and make an impact on the world around you. You will choose something that you'd like to learn more about, do something meaningful, and share your learning with friends and family.

Learn by doing as you pursue your passion into deeper learning and service. Follow the the step-by-step guides into the development of your project. While doing so, you will make connections to content, life-ready skills, and social-emotional skills. Upon completion of this project, not only will you have made a difference to someone, but you will have a product and presentation that can be shared with an audience.

1. Plan

3. Pitch

5. Product

2. Passion

4. Project

6. Presentatio

A3. QUANTITATIVE REASONING BADGE

Complete one Math Course

(In a traditional school or homeschool.)

Complete one Math course this year. In order to receive this badge, complete a total of three Math courses.

Quantitative Reasoning Goal

Complete the Quantitative Reasoning Goal during the Possibilities Project

R2. RECOGNIZING STRENGTHS 2 BADGE

Strength-Based Journey 2 Playlist

Project of Peace

Peace can show itself in many ways. In this lesson, peace is shown through the eyes and heart of an artist.

Getting to Know You

You will soon be paired with someone to get to know who they are, what stories they have to share, and practice the skills of listening to understand and empathy. Let these suggestions guide you!

Do Something Awesome

People of every age can make a change in the world around them. Right now. This very second. The world needs your best contribution today... are you ready?

It Can Wait!

Putting things off and waiting to get started on tasks is something we all struggle with. Procrastination can cause us to not achieve our best and can add more stress to our lives.

Schedule it!

To manage one's time you have to break down all of your tasks for each day and week and prioritize them according to schedule and importance. This lesson will begin to strengthen your time management skills.

What Are Essential Skills?

Essential skills are the personal attributes one needs to succeed in the workplace, in relationships, and in life.

You Are Limitless

You are made up of the experiences you've had, the people who love you, and the people you love. The music you listen to, the words you write, and the things you've learned also make you who you are. You are more than meets the eye. You are full of possibility.

College: Here I Come!

It is never too early to start dreaming about the rest of your life! In fact, one thing you need to wrap your mind around is COLLEGE! What you do today and what you do over the next few years can set you up for success.

Get Ready With Career & Technical Education (CTE)

Career & Technical Education (CTE) can help you get on the fast track to your career and dream job!

RIASEC 101: High School Edition Course

RIASEC is an abbreviation that stands for realistic, investigative, artistic, social, enterprising and conventional. RIASEC is also called John Holland's Six Types of Personality.

T2. BUILDING SUCCESSFUL RELATIONSHIPS BADGE

Building Successful Relationships Playlist

How Do I Find My Value?

Cognitive: You will accept that each human being is valuable and should be treated well. Affective: You will understand that your own sense of value is awakened by helping others. Behavioral: You will help others more often and use this experience as a tool to realize the value of others and your own value.

Am I My Own Boss?

Cognitive: You will gain perspective on the parental point of view and gain skills to deal with conflicts. Affective: You will have more sympathy with the parental point of view and be more understanding in conflict situations. Behavioral: You will approach conflict with more responsibility and skills.

Resolving Inner Conflict

Cognitive: You will recognize being in a state of inner conflict and learn tools to deal with it. Affective: You will want to resolve inner conflict. Behavioral: You will take the actions and adopt the attitudes necessary to resolve inner conflict.

Respect in Relationships

Cognitive: You will understand the importance of respect in all human interactions. Affective: You will feel respect for others and appreciate being treated with respect. Behavioral: You will be more respectful when dealing with others in general. In specific, you will show better listening skills.

Love - The Greatest Value

Cognitive - You will understand that everyone cares about love. You will understand that love needs to be studied to be understood. Affective - You will want to experience and give true, unconditional love. Behavioral - You will examine not only your own but also others' motives in relationships involving love. You will practice altruistic love. You will resist relationships based on self-centered love.

Friendship

Cognitive - You will understand the value of friendship. You will understand that friendships are built on virtues.

Affective - You will appreciate friendship more. You will be willing to practice the virtues they need to build and keep good friendships. Behavioral - You will maintain good friendships. You will strive to make your friendships better. You will make more friends by practicing the virtues explained in the lesson.

How We Relate

Cognitive - You will understand that vertical and horizontal relationships call for different manners and skills. You will understand things that sometimes block them from forming new and valuable friendships. Affective - You will feel increased respect for elders and leaders in your vertical relationships. You will feel more open to people who are different from you. You will feel more optimistic about diverse types of people getting along peaceably. Behavioral - You will show more respect toward elders, teachers, and leaders. You will be more open and friendly to people from other areas, language groups, of different skin color, background, or religion.

Communication Skills

Cognitive - You will understand that good communication skills can prevent and resolve many arguments. Affective - You will desire to communicate better by using the skills they have learned. Behavioral - You will use "I" messages and reflective listening in real life communications situations.

What Do Parents Really Think?

Cognitive - You will understand better the cares and frustrations of parents in raising the children they love. Affective - You will feel more sympathy for parents. Behavioral - You will behave in a more cooperative and supportive way toward your parents.

Resolving Conflict and Forgiveness

Cognitive - You will understand how important it is to forgive. Affective - You will feel more forgiveness in your hearts toward others. Behavioral - You will forgive offenses more quickly and will act to restore conflicted relationships.

Human Sexuality and Integrity

Cognitive - You will understand that premarital sex cannot satisfy the deep desires of the mind and heart—only the marriage relationship can do that. Affective - You will want to be and stay sexually whole. Behavioral - You will abstain from premarital sex.

The Challenge of Purity

Cognitive - You will understand the superiority of purity over impurity and relate it to sexuality. Affective - You will want to be pure in thought, word, and deed. Behavioral - You will guard your purity by being careful of what media influences you let into your minds, and by being careful in speech, dress, and general actions.

Falling in Love, Friendship and Real Love

Cognitive - You will understand that you should concentrate on friendships at this time rather than "love." You will understand the difference between infatuation or "falling in love" and real love. Affective - You will want to save your passions for a future spouse and build your friendship resources in the here and now. Behavioral - You will be careful, wise, and friendly in your relationships with the opposite sex.

Broken Relationships

Cognitive - You will understand that the pain of broken relationships needs to be grieved over and that some steps must be taken in order to heal. Affective - You will want to take steps to heal the effects of your broken relationships. Behavioral - You will not compensate for broken relationships by jumping into new ones, especially romantic and/or sexual ones, and will take steps to help yourselves heal.

Preparation for Marriage

Cognitive - You will realize that, just like your future careers, your future marriages require some education and preparation. Affective - You will feel more realistically about marriage and be interested in winning over the challenges it will present. You will feel more inclined to turn to your parents and the older generation for advice in preparing for marriage. Behavioral - You will seek to improve your relationship skills, your ability to relate to young children, and your monetary skills. You will consider dating with a more serious attitude.

The Family as the School of Love

Cognitive - You will understand that the family is where you learn to love others, even others outside of your families. Affective - You will appreciate your families and want to invest in those relationships more. Behavioral - You will relate to others respectfully as if you were your own family members. For instance, you will be more polite toward elderly people, thinking of them as your own grandparents.
